AREZOU SAKHIZADA
SOFTWARE DEVELOPER

Summary

Fullstack Web Developer with almost 2 years of professional experience in a startup company focused in the Electric Utilities/EV's sector and part of a hands on learning position where I worked with a variety of modern day software tools that required me to read documentation, experiment new concepts, and collaborate with my teammates to solve daily problems.

Employment

The Logit Group Inc. — London Ontario
Market Research Surveyor (Part-time) — Dec. 2020 to Current
- Conduct market research through standardized phone interviews and virtual focus groups to accurately enter into the systems
